

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

TRITON (LF) FLEXIBLE MULTI-ASSET FOF

Class J USD LU1931934555

A Sub-Fund of 20UGS (UCITS) FUNDS

Sub-fund managed by: Duff & Phelps (Luxembourg) Management Company S.à r.l.

Objectives and Investment Policy

Objectives To provide investors with a long-term capital growth by providing a balanced investment exposure to broad range of asset classes including equities, bonds, closed-ended real estate property (REITS), alternative investments (UCITS with alternative strategies), commodities and cash.

Portfolio Securities The Sub-Fund will invest its assets primarily in units of UCITS and/or other UCIs as described in article 41 (1) indent (e) of the 2010 Law, including Exchange Traded Funds (ETFs) whose applicable investment rules are equivalent to the investment rules applicable to the Fund in accordance with the applicable laws, regulations and approaches adopted by the CSSF, which mainly invest a) in equity securities and derivatives thereof, b) in transferable debt securities and derivatives thereof, c) indirectly in commodities through eligible instruments, in particular via eligible UCITS and ETFs, and derivatives thereof and d) in bank deposits and money market instruments, with a broad and unrestricted geographical area.

Secondarily, and up to an aggregated percentage of 35% of its net assets, the Sub-Fund may also invest directly to other transferable securities, like: equities and equity type instruments (ADRs, GDRs), investment grade and high-yield bonds, treasury bills and money market instruments as well as in closed-ended REITS in a percentage of no more than 10% of its net assets. The Sub-Fund will not invest more than 10% of its net assets in convertible bonds and no more than 10% of its net assets in contingent convertibles. In addition, the Sub-Fund will invest up to 5% of its net assets directly or

indirectly via eligible UCITS and ETFs in mortgage-backed securities (MBS) or asset-backed securities (ABS).

The Sub-Fund is not subject to a predetermined asset class, geographical area, theme or industry sector. The Sub-Fund may invest in assets denominated in any currency.

Derivatives The Sub-Fund may also invest directly to listed derivative financial instruments, including, but not limited to, index, equity, fixed-income, interest and currency futures and options for hedging, efficient portfolio management and investment purposes. Derivative instruments traded over the counter (OTC), as currency forwards, can be used only in order to hedge the exposure to eventual foreign currencies to which the Sub-Fund underlying may be denominated. Such instruments can be used provided they are contracted with first class financial institutions specialized in this type of transactions. At all times, the maximum exposure level to derivatives is capped at 100% of the Sub-Fund net assets.

Designed For Informed investors who are advised to invest only part of their assets therein. The Sub-Fund is intended for institutional investors only within the meaning of article 174 of the amended law of 17 December 2010 relating to undertakings for collective investment with the prior approval of the investment manager. Although there is no time commitment, the recommended investment horizon is approximately 5 years.

Risk and Reward Profile

The value of an investment in the Sub-Fund can go up and down. When you sell your shares, they may be worth less than what you paid for them. If your currency as an investor is different from the subscription currency of the Sub-Fund, changes in currency exchange rates could reduce any investment gains or increase any investment losses.

There can be no assurance that the Sub-Fund's investment objective will be achieved or that there will be any return of capital, and investment results may vary substantially on a monthly, quarterly or annual basis. Shares are a potentially suitable investment only for sophisticated investors for whom an investment in the Sub-Fund does not represent a complete investment program and who, in consultation with their own investment and tax advisors, fully understand and are capable of assuming the risks of an investment in such Shares.

The risk/reward rating above is based on medium-term volatility (actual or estimated variations in the Sub-Fund's share price over five years). Going forward, the Sub-Fund's actual volatility could be lower or higher, and its rated risk/reward level may be changed.

The risk category has been determined on the basis of historical and/or simulated data and may not be a reliable indication of the sub-fund's future risk profile.

The Sub-Fund's risk level reflects the following:

• As an asset class, shares carry higher risks than bonds or money market instruments.

• **Volatility** : The prices of the Sub-Fund's investments, including common equity, can be highly volatile. The Sub-Fund's long-only strategy may result in a greater level of volatility in comparison to other funds that pursue other investment strategies.

• **Investment in speculative instruments** : The Sub-Fund may invest in securities, options and derivatives that are highly volatile and speculative.

The rating does not reflect the possible effects of unusual market conditions or large unpredictable events, which could amplify everyday risks and could trigger other risks, such as:

Counterparty risk The Sub-Fund could lose money if an entity with which it does business becomes unwilling or unable to honor its commitments to the Sub-Fund.

Derivatives risk Certain derivatives could increase Sub-Fund volatility or expose the Sub-Fund to losses greater than the cost of the derivative.

Liquidity risk Certain securities could become hard to value, or to sell at a desired time and price.

Management risk Portfolio management techniques that have worked well in normal market conditions could prove ineffective or detrimental during unusual conditions.

Operational risk In any market, but especially in emerging markets, the fund could lose some or all of its investments through fraud, corruption, political or military actions, the seizure of assets, or other irregular events.

Charges

The charges you pay as an investor in the Sub-Fund go to cover Sub-Fund operating costs, including marketing and distribution costs. These charges reduce the performance of your investment.

One-off charges taken before or after you invest

Entry Charge	3.00%
Exit Charge	3.00%

Maximum that might be taken out of your money payable to the sales agents.

Charges taken from the Sub-Fund over a year

Ongoing Charges	1.10%
-----------------	-------

Charges taken from the Sub-Fund under specific conditions

Performance Fee	None
-----------------	------

For entry and exit charges, you might be eligible to pay less than the maximum amounts shown. Consult your financial advisor.

The Ongoing charges figure is an estimate of the charges due to the variation of these. The Fund's annual report for each financial year will include detail on the exact charges made.

Ongoing charges vary from year to year and do not include performance fees and portfolio transaction costs, except in the case of an entry/exit charge paid by the Sub-Fund when buying or selling units in another mutual fund.

For more information about charges, please see the "Charges" section of the Fund's prospectus, available at www.bedrockgroup.com.

Past Performance

Past performance is no guarantee of future performance.

The figure for a given year shows how much the Sub-Fund increased or decreased in value during that year.

These results reflect ongoing charges taken from the Sub-Fund, but do not reflect any entry and exit charges you might have to pay.

Sub-Fund inception: 2019 Class inception: 2019

Practical Information

Depositary: Société Générale Bank & Trust.
